ISFNT14

Call for Sponsorship and Exhibition

Invitation

Dear Colleagues,

On behalf of the Local Organising Committee, it is our great pleasure to welcome you to the **14th International Symposium on Fusion Nuclear Technology**, in **Budapest, Hungary**, from **September 22 to 27, 2019**.

“Bridging Science and Technology”

We selected this motto to emphasize the importance of the dialogue and tightest collaboration between scientists and engineers, which is more than necessary to successfully achieve the century-long dream of humankind – bringing the power of the Sun to Earth.

The International Symposium on Fusion Nuclear Technology (ISFNT) is one of the most important international events organised with the aim to foster interactions among scientists and engineers, to exchange information on all scientific and engineering aspects of fusion nuclear science and technology. It also represents great opportunities for reporting on recent technical progress, discussing many multidisciplinary issues and driving forward international collaboration for the promotion of fusion energy development. The symposium addresses near-term fusion devices and long-term reactor technologies, as well. We encourage contributions related to science, engineering, facilities, experiments, modelling, analysis, design and safety.

As an integral part of the scientific programme of oral lectures and poster presentations, an international exhibition will be organised for companies active in the fusion nuclear technology field. ISFNT-14 will provide the perfect forum for your Company to even more deeply engage with other stakeholders in the field and possibly create new tights and connections.

The Local Organising Committee is especially pleased that the ISFNT-14 will be hosted in the beautiful Hungarian capital city, Budapest. The Symposium venue – Budapest Congress Centre – is equipped with a complete range of conference facilities and is easily reached by a variety of transport choices. It is situated in a pleasant and peaceful chestnut park and is directly connected to hotel Novotel Budapest Congress. It is a place where meetings can be organised in a dynamic and modern environment. The centre is equipped with the latest audio-visual, stage-, light-, and air-conditioning technologies.

It is our strong belief that the ISFNT-14 will provide your Company with an excellent business opportunity, and you will create new contacts and initiate new collaborations.

I am looking forward to welcoming you during the ISFNT-14 in 2019 in Budapest.

Yours sincerely,

Gabor Veres

Head of Department of Plasma Physics,
Wigner Research Centre for Physics
General Chairman of ISFNT-14

Topics of ISFNT-14

The Symposium covers all scientific, engineering, and other technical aspects of fusion nuclear science and technology. It addresses not only present-day and near-term fusion devices including ITER, but also long-term reactor technologies and concepts.

The scientific programme is set to be wide ranging and includes topics like:

- 1) Plasma-Facing High Heat Flux Components
- 2) Blanket Technology
- 3) Fuel Cycle and Tritium Processing
- 4) Material Engineering for FNT
- 5) Vacuum Vessel and ex-vessel systems
- 6) Nuclear System Design
- 7) Safety Issues and Waste Management
- 8) Models and Experiments for FNT
- 9) Repair and Maintenance
- 10) Burning Plasma Control and Operation
- 11) Inertial Confinement Fusion Studies and Technologies
- 12) Fission-Fusion Synergy and Cross Cutting Technologies

Congress Venue and Contact Information

The venue of the conference, the Budapest Congress Centre is the largest congress facility in Hungary. The latest audio-visual, WIFI and air-conditioning technologies will serve the convenience of all the participants. The Congress Centre is connected to the Hotel Novotel Budapest City. The congress venue has good connection to the city centre.

Exhibition booths will be located in the vicinity of lecture halls in the coffee break area. The exhibition halls will offer a flexible booth concept for your own booth. We offer a wide range of sponsorship packages as well as supplementary options to achieve the biggest exposure to your company. We are convinced that this event presents an excellent option to exhibit your technology and services to a large number of counter parts and, further, to become a sponsor of this event to make it more attractive.
